

Safety, Quality and Security Policy of HungaroControl

HungaroControl Pte. Ltd. Co. provides a reliable service for all its customers, and facilitates the safe, efficient and continuous flow of air traffic.

To this end, it maintains and develops its capabilities necessary for service provision, operates its safety, quality, aviation security and air traffic information security systems in an innovative way, and develops its safety and security culture.

HungaroControl Pte. Ltd. Co.:

1. considers safety as a fundamental requirement and a priority, in compliance with the procedures prescribed in domestic and international regulations, applicable international standards, while taking industry best practices into account;
2. ensures the realisation of its safety and strategic goals by providing the necessary resources, an inspiring work environment, training its managers and employees, and by developing its processes and technical equipment;
3. cooperates with national and international industry organisations and partners in order to enhance its safety and quality performance;
4. ensures that its Chief Executive Officer takes general responsibility for safety and ensures that the operation of the company's safety, quality and security management systems are efficient, unbiased, and free of unauthorized interference;
5. ensures that its executives take responsibility for providing a safe and quality service, are committed to achieving – or, if in line with company interests, exceeding national and international industry goals, and to maintaining a high level of safety and reporting culture;
6. ensures that its personnel carry out their activities consciously, in a fully responsible and professional manner with due regard to the effect of their activity on safety, the society, the environment and sustainable development, and are committed to maintaining a high level of safety and reporting culture;
7. continually assesses its safety, quality and security performance and does not accept any deviations that are detrimental to safety;
8. maintains concise, open, broadscale, two-way communication both with its employees and partners.

Budapest, 27 August 2024

Ferenc Turi
