

Environment Policy of HungaroControl Pte. Ltd. Co.

"The smallest good deed is greater than the grandest intention!" Duguet

HungaroControl Hungarian Air Navigation Services Pte. Ltd. Co has committed itself to the protection of our environment, as well as the preservation of the present circumstances while enabling the sustainable development of aviation.

In order **to enhance our performance in the field of environment sustainability** we have volunteered to undertake the following commitments:

- By continuous improvement of the standard of air traffic service provided, and being a pioneer in technological development, as well as by performing safe, punctual and cost-effective operation we are enabling the sustainability of the development in aviation and ensuring the increased protection of our environment.
- By adopting the best available technology and competency and along with the continuous training of our employees, the supervision of workflow as well as the work- and fire protection systems, together with the oversight of waste management and air pollution we are ensuring **the prevention of environmental pollution and the decrease in environment impacts** as well as **the implementation of relevant laws, and other obligations, social expectations.**
- We are **setting targets and developing dedicated programs** through the continuous analysis of the **environment impacts** related to air navigation services (indirect noise pollution, the use of non-renewable energy sources, the production of dangerous and non-dangerous waste, air pollution, the operation of machines and equipment).

We are able to monitor and track our achievement of our targets through **standards derived from factual operational figures.**
- By adopting our integral environmental management system, which is in line with the ISO 14001:2004 standards - we are **regularly reviewing our environmental performance.**
- As a desirable attitude, we **communicate our commitment** towards our partners.

Budapest, 1 January 2011.

Kornél Szepessy
Chief Executive Officer
HungaroControl Pte. Ltd. Co.
